

First Church of God Nursery Locations

kidsconnection

Nursery care takes place in three different rooms:

- The **Infant Room** is for infants born since July 2010.
- The **Toddler Room** is for toddlers born November 2009–June 2010 and those who begin walking.
- The **Next Step Room** (Room 211) is for children born April 2009–October 2009.

All children in the nursery ministry are to check-in with the nursery receptionist at the counter in the infant nursery.

Nursery VIPs

Very Important Points are procedures that have been established to keep the nursery well organized so the little ones receive care and have fun in a safe and loving environment.

Prior to Arriving

- * Please use the diaper bag tag that we provide to identify your diaper bag.
- * For toddlers, plan to provide a sippy cup with a drink.
- * Please label bottles, pacifiers, and sippy cups with your child's name. (Masking tape and sharpie marker work great.)
- * Be sure to include extra disposable diapers or pull-ups, a plastic bag for wet clothes, and a change of clothes in your diaper bag.
- * Be aware that if items are not labeled, they will be labeled with a sticker with your child's name.

At Check-In

- * Each family needs to check in at the counter in the main nursery.
- * A name tag will be placed on your child's back.
- * We will issue you a pager. The pager will vibrate if your child needs you while under our care.
- * Please provide the receptionist with any special instructions regarding the care or feeding of your child.
- * Give your child hugs and kisses and leave him/her with the caregivers. We will page you if he/she does not settle down after a few minutes.

While in Our Care

- * Your infant will be fed according to the instructions you leave with the receptionist at check in.
- * Your toddler will be served a snack such as cheerios, fish crackers, or animal cookies and will be offered the sippy cup that you provide.
- * Your child's diaper will be checked at least once during each service hour and children who are being potty trained will be taken to the bathroom.

At Pick-Up

- * Please return promptly. Children become upset once their friends start leaving. They are ready for you to come back.
- * For infants, please return to the counter in the main nursery and present your pager to the receptionist. Your child will meet you at the counter.
- * For toddlers, please pick up at the half door at the toddler room. Please present your pager to the caregivers and they will present your child and the diaper bag to you at the door.
- * For older toddlers in the next step room, please enter the room cautiously and quickly close the door behind you. Return your pager to the caregivers and gather your child and diaper bag.
